

Remember When Listening Was Effortless?

Free Hearing Aid Evaluation!

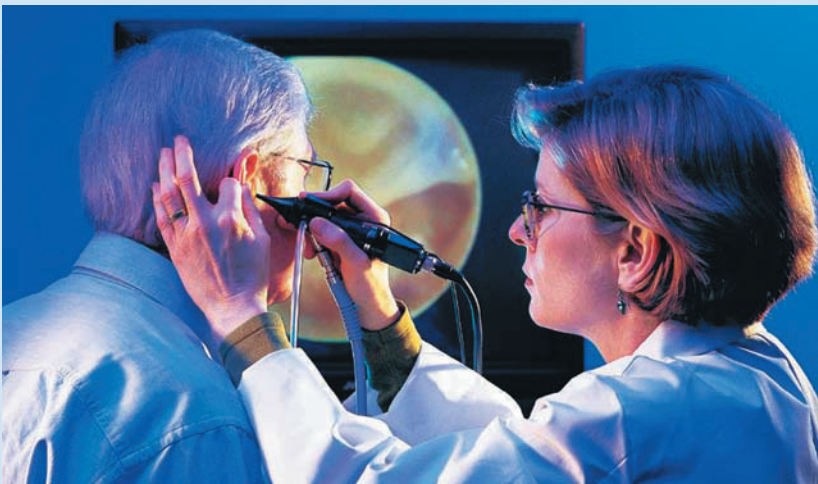

If you're one of the millions of Americans who can hear, but can't understand, act now! You're missing a very vital part of your life. The first step to recovering your hearing is easy.

FREE Ear Canal Examination

FREE Familiar Voice Test

FREE Baseline Audiogram

FREE Speech Understanding Assessment

Hearing Tests Are Important

If it has been over a year since you have had your hearing evaluated, you owe it to yourself to have a hearing check-up to determine what can be done to help you. These check-ups are offered at no obligation and may change your life. Hearing Aid HealthCare has enhanced procedures and techniques that allow us to precision-fit your specific hearing loss.

It Might Just Be Wax

One of the procedures is called Video Otoscopy. It allows the specialist to view your ear canal and eardrum to check for wax build-up or blockage. You see what they see on the computer screen.

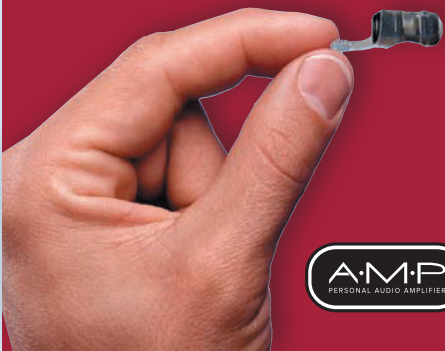

See Your Hearing Loss Clearly

We use Live Speech Mapping and Frequency Shaping techniques. These procedures ensure the most accurate fitting possible. Hearing Aid HealthCare offers FREE demonstrations of this new Frequency Shaping technology with live listening demonstrations in noise simulated environments. This technology has produced the highest level of patient satisfaction.

You Are Invited

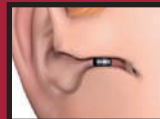

You are invited to come see what you have been missing. Our staff of professionals look forward to answering all your questions with a no-obligation appointment that can change your life!

You Can't Afford To Not Hear
